PROFILE

I have a passion, for computer science. I'm highly motivated and enthusiastic. I possess problem solving skills. Have the ability to coordinate technical tasks effectively. Although I haven't had any IT experience I have successfully handled projects during my time in college organized tech events and gained valuable insights, from interviews.

PROJECT

CHAT BOT - SIMPLE PERSONAL ASSISTANT

This project helps users improve their communication skills by allowing them to interact with an assistant built on Python. It caters to the increasing demand, for skill development.

MINI WIKIPEDIA - ARTICLE WEBSITE

This project offers a user platform that allows users to read, reference and share articles. Its smooth interface is created using HTML, CSS and a PHP backend.

ACHIEVEMENT

- I was a member of the 'JOHNMCCARTHY CSE Quiz Club', in our computer science department, where I held the position of Vice President.
- I secured the runner-up position in the 'Software Marketing' competition during DAWN SIM at Francis Xavier Engineering College.

CERTIFICATION

- I finished the 'Introduction to JavaScript' course on SoloLearn.

DECLARATION

I vouch for the truthfulness of the details presented here
